

Treasurer Report – July 10, 2018

Addendum

1. Attempted to switch from Spectrum to US Cellular for internet and phone in the office to save approximately \$40 per month. Found that the speed of US Cellular, at least in the office, was insufficient. Tests were made to view various images and short video clips, which were not successful. Will research other carriers, if any, as time permits.
2. Am now keeping the books on a cloud based Financial Software (CountAbout) having just converted from Quicken this month. This will cost \$9.99 per year. This will enable the books to be managed from the office as well as the Treasurer's home. Approval to move to a cloud based system was given by the Executive Committee several months ago.
3. With the completion of the Fundraiser, we can begin efforts for "membership" donations phone banking.
 - a. **Motion:** All who donated to the Fundraiser automatically receive "Membership Cards".
 - b. **Motion:** To avoid conflict with individual campaign fundraising, begin the phone banking after the November elections, while planning and preparation can be done until then.
